

Quick Start Guide

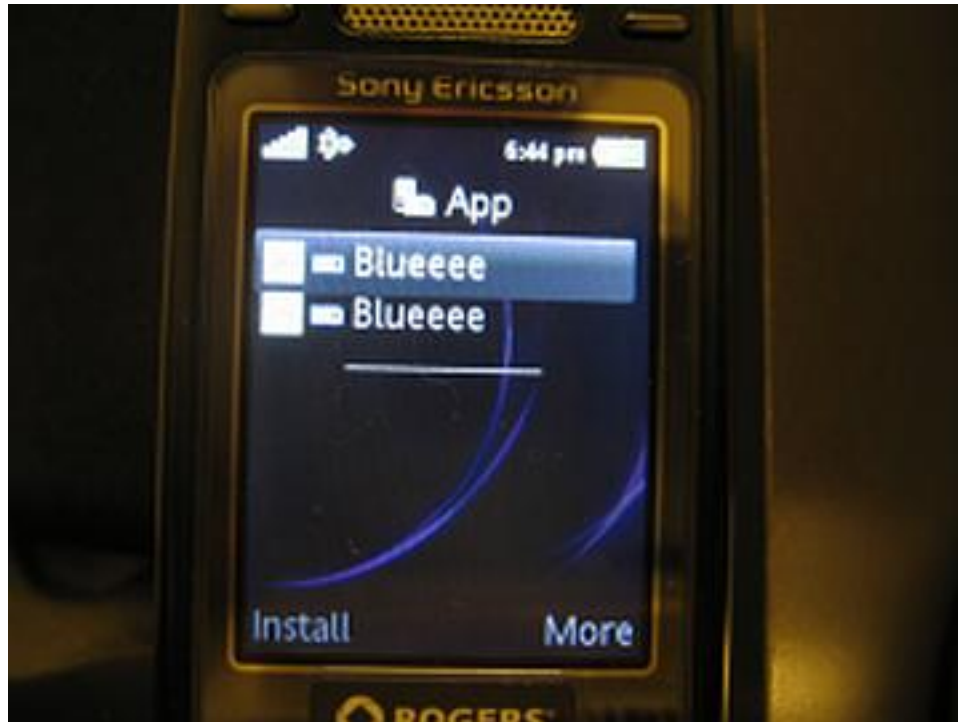

Blueeee! Bluetooth Instant Messenger

Everyone. Everywhere. Everytime.

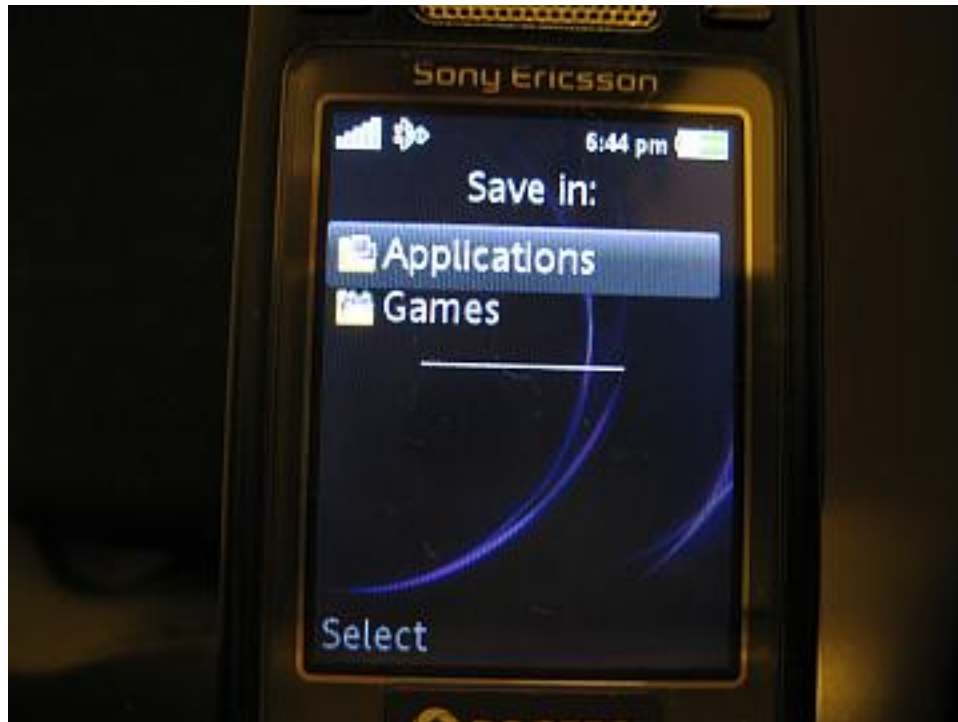

1.1 Installing Blueeee!

1. Download the zip file containing Blueeee! from Blueeee.com to your computer.
2. Extract Blueeee.jar and Blueeee.jad to a folder on your computer.
3. Using the USB cable that came with your phone, transfer both Blueeee.jar and Blueeee.jad to your mobile phone.
4. On your mobile phone, select Blueeee.jar and click on Install.

Everyone. Everywhere. Everytime.

5. When asked where to save/install Blueeeee!, choose a folder of your choice. The recommended location is "Applications".

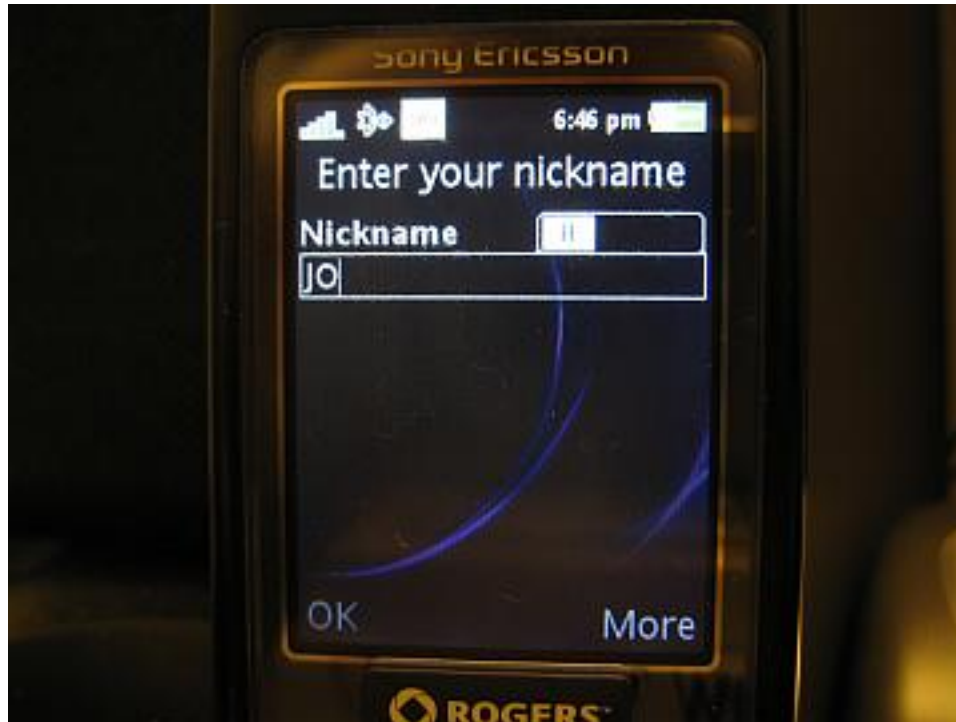

2.1 Running Blueeeee!

1. Navigate to the “Applications” folder of your mobile phone, and select to run Blueeeee! IM.

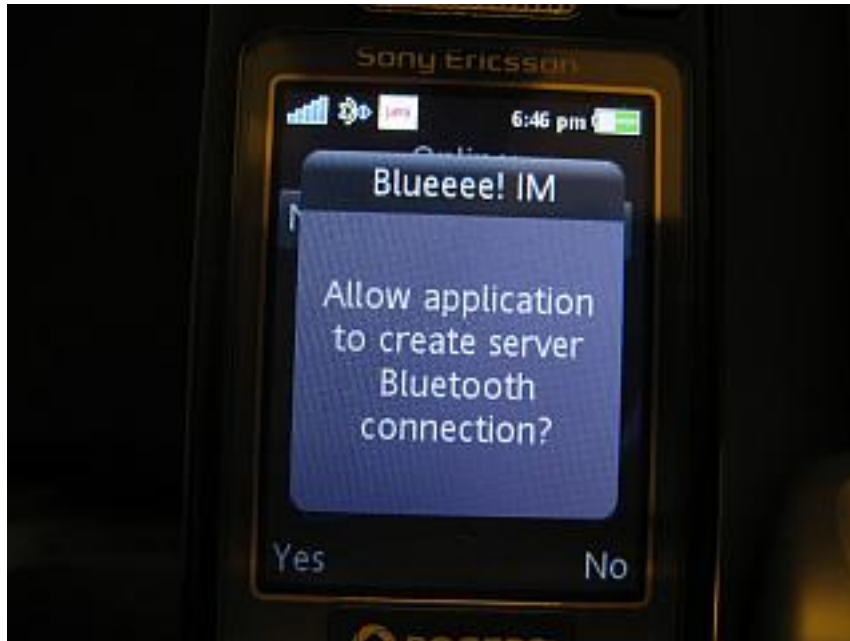

3.1 Using Blueeee!

1. When running Blueeee! for the first time, choose and enter your nickname that will be visible to other Blueeee! users.

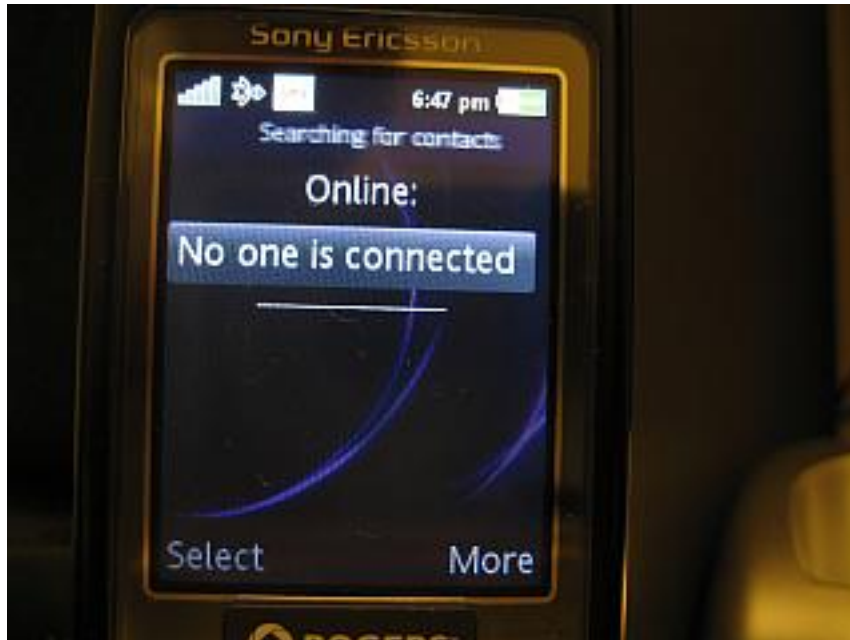

Everyone. Everywhere. Everytime.

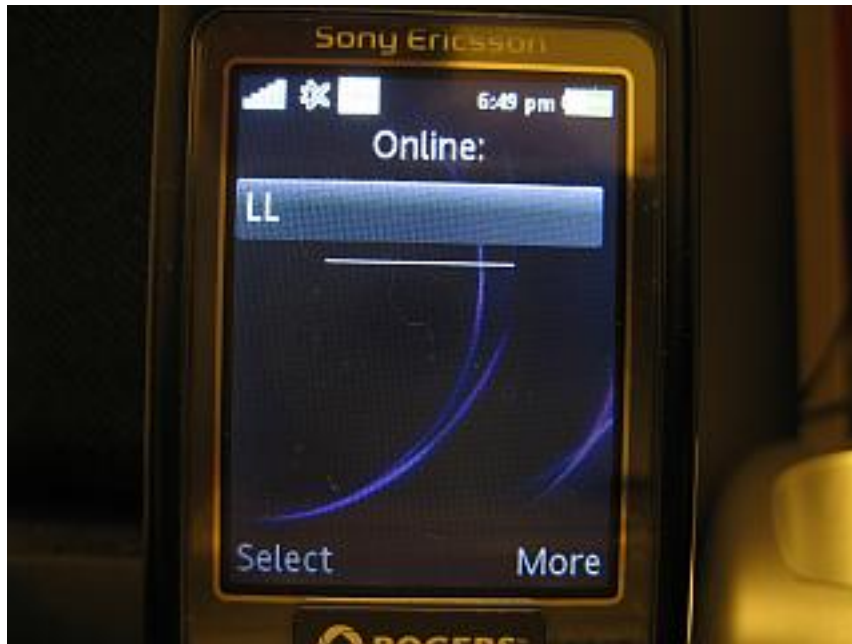

2. Select "Yes" when your mobile phone asks you if you want to "Allow application to create server Bluetooth connection?"

Everyone. Everywhere. Everytime.

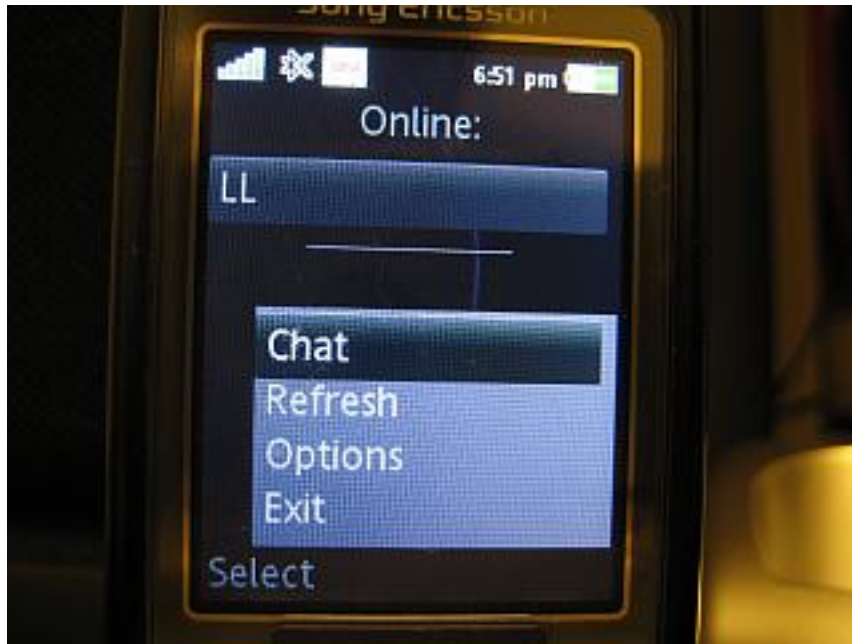

3. Blueeee! will now search for nearby mobile phone users who are also running the Blueeee! instant messenger client.

4. The online list displays all nearby mobile phones that are running Blueeeee!.

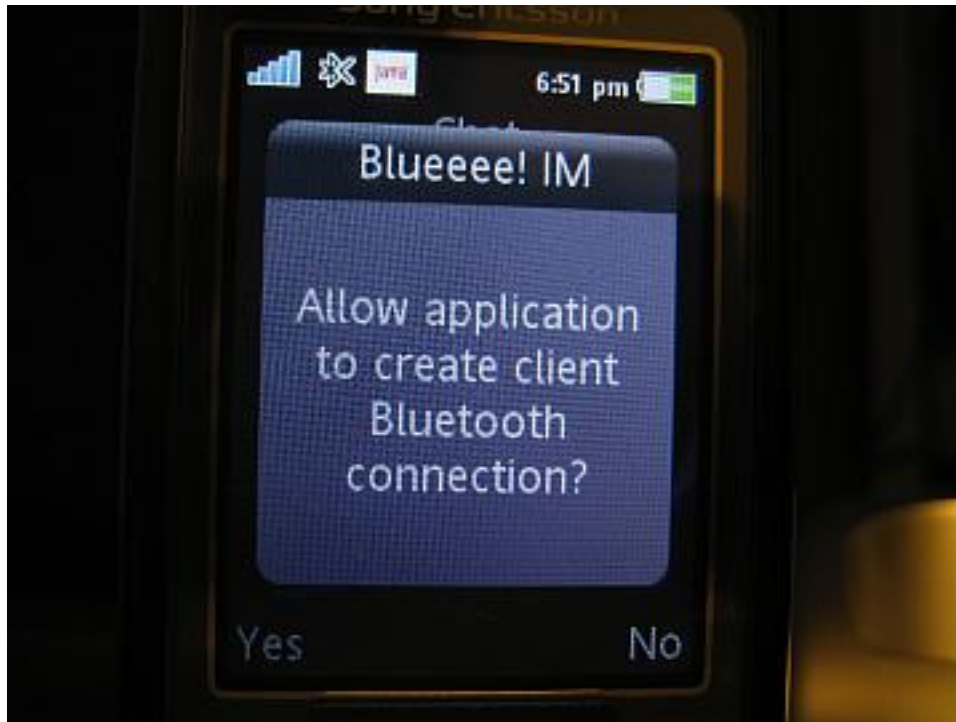

Everyone. Everywhere. Everytime.

5. To chat with a person, highlight the person's name, and select Chat from the menu.

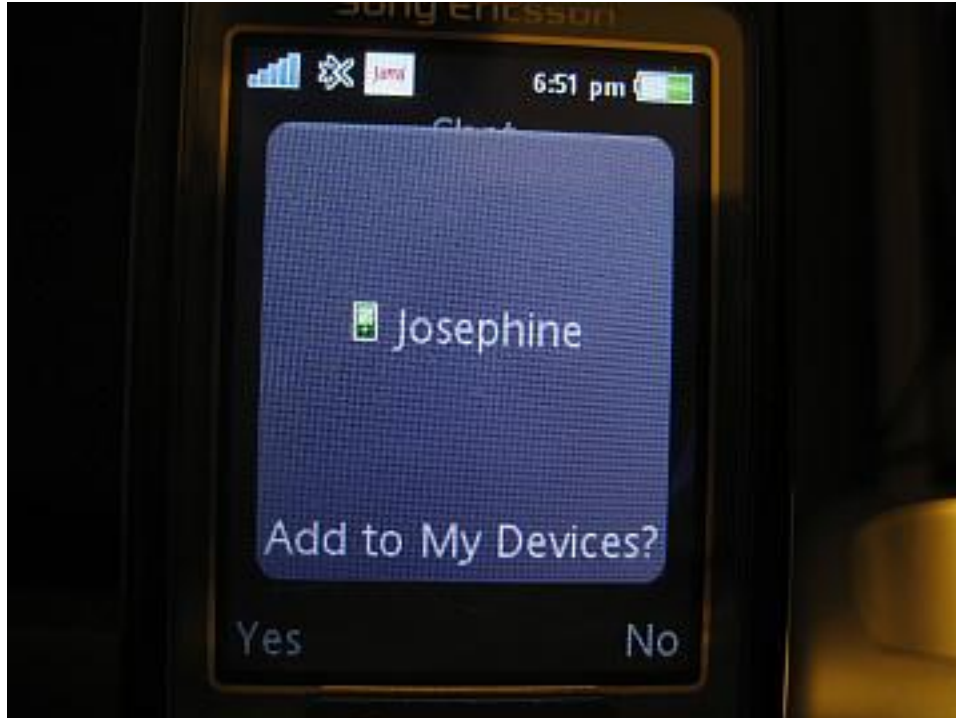

Everyone. Everywhere. Everytime.

6. Select "Yes" when your mobile phone asks you if you want to "Allow application to create client Bluetooth connection?".

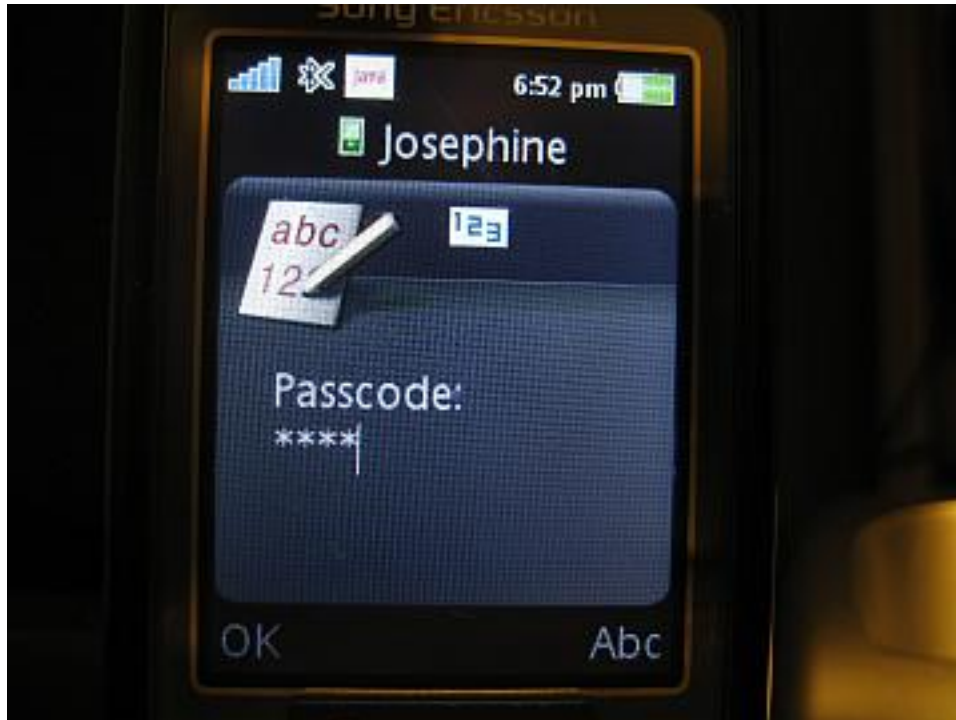

Everyone. Everywhere. Everytime.

7. If you are chatting with the person for the first time, you will be asked to add the person's phone, to whom you want to chat with, to "My Devices". (All subsequent communication with that person will not require adding the person to the "My Devices" list anymore).
8. Select "Yes" when your mobile phone asks you if you want to add the person's phone, to whom you want to chat with, to "My Devices".

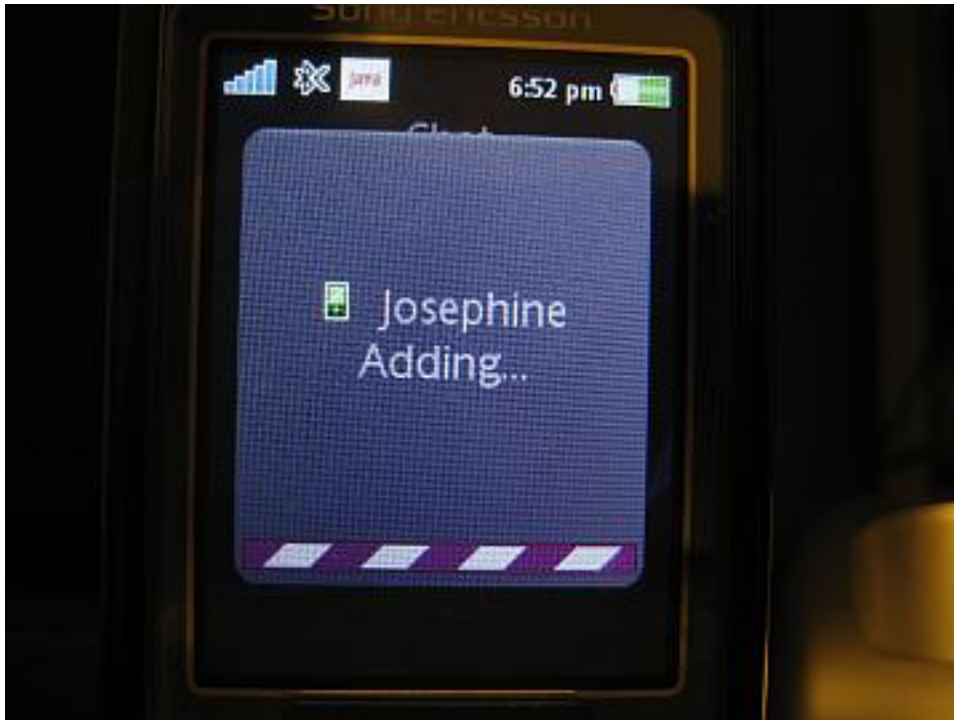

Everyone. Everywhere. Everytime.

9. Choose a "Passcode" (eg. 1234) and have the person, whom you want to chat with, enter the same "Passcode" into his/her mobile phone.

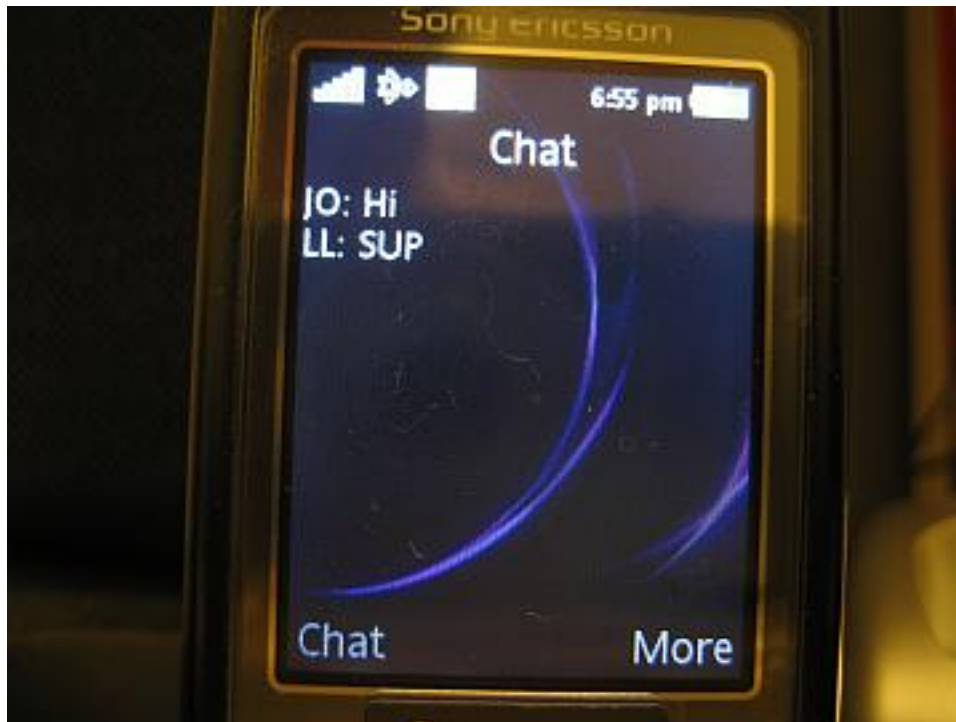

Everyone. Everywhere. Everytime.

10. Once you and the person with whom you would like to chat with entered the same passcode into the respective mobile phones, your mobile phone will be able to send messages via Blueeee! to the other person from now on.

Everyone. Everywhere. Everytime.

11. You can now send unlimited messages to the other person for FREE, with a program that looks and feels like any other computer instant messaging programs!
